

Nachi is a Japan based manufacturer who is the first manufacturing of Bimetal Bandsaw blades, introducing a blade suitable for material ranging from aluminium to hard to cut steels. Full lineup of metal bandsaw blades from NACHI handles your job from highspeed to high-quality cutting...

## **ORNADO SWORD-MD**

- Outline
- Features / Performance

- Metal band saw featuring high-alloy HSS teeth Increased wear resistance and toughness for a longer tool life
- High & low tooth form and compound dispersion tooth set reduce cutting resistance for a smooth surface finish

# TORNADO SWORD-MD

- Outline
- Features / Performance
- Work Materials
- Alloy steels
- Die steels
- Stainless steels

#### Performance

Saw blade Band saw	Cutting surface roughness	Cutting surface
TORNADO SWORD-MD	Rz0.026	
Company A M42	Rz0.058	

Work material: Die steel PLAMAXWork material: 5300 7 41 7 2/3Cutting speed: 25 m/min<br/>10 min/cut

	No. of cuts (pcs)		
Saw Blade	50 100 150		
TORNADO SWORD-MD			
Company A M71	Material : SUS630 W127 x H150 Saw blade : 3505 x 27 x 3/4 Saed : 40 st(crin		
	Speed : 40 m/min 9.5 min/cut		

### TORNADO SWORD CNC

- Outline
- Features / Performance

- Metal band saw featuring a newly developed spring steel for the body
  Dramatically improved fatigue life due to special surface processing
- Positive rake and wide gullets ensure fast cutting and a long tool life
- Improved tooth form and tooth set enable a smooth finish and straight cut

## TORNADO SWORD CNC

- Outline
- Features / Performance

#### Work Materials

- Structural steels
- Alloy steels
- Stainless steels
- High-temperature steels
- Tool steels

#### **Applicable Machines**

HFA-300CNC, 400CNC, 500CNC, SGA410CNC, SGA8010CNC, SGA8513CNC, etc.

### Performance

Saw Blade	TPI	Tool Lif x 10 <sup>4</sup> (cm <sup>2</sup> ) 5 10
TORNADO SWORD CNC	3/4H	
Conventional	3/4	Work material: SUS cast iron 160
TORNADO SWORD CNC	2/3H	
Conventional	2/3	
		Work material: S45C 280
TORNADO SWORD CNC	2/3H	
Conventional	2/3	
		Work material: SKD61 300
